## Bass Tournament Opens Today

Of course everyone knows that the Bass Bass Fishing Tournament starts today! You can get full details at most business places, motels, or at Slim's Fishing Camp. The tournament sponsored by the Jaycees and the Chamber of Commerce are offering some wonderful prizes. In order for this to be a great success all the citizens in the community can help by telling their friends on the coast and other cities. According to Dr. Thomas Baker, chairman of the Jaycees, out of town fishermen coming here for the first time really need a guide or someone to show them where to fish on the lake. So, he suggests that fishermen and those interested in fishing as guides are asked to leave your names at the Chamber of Commerce with Mrs. Edna Young and the time and date you would be free to take fishing parties out. Don't forget, let's really put this tournament over in a big way.

of \$2,500 to \$5,764.00 on January 1st 1954 — twenty years of growth with the Glades — and the distribution of \$150,000 in dividends during its nineteenth year, we're of the opinion that all the records in the book have been broken.

Most bankers and savings and loan institutions look a doubting eye at this statement — but it's a statement and Brother Hugh Bratley swears to it.

The increase during the past year in investments with the organization amounts to \$1,110,000, and many thousands have poured in since January 1st looking for that 3 1/2% dividend.

The total number of investors is around 1500 and is composed of individuals, firms from throughout the United States, Hawaii and Venezuela.

More than 1,000 individuals are now enjoying progressive earnings of income from the facilities of the institution.

**GEE HEADS COUNTY'S MARCH OF DIMES EFFORT**

Fund campaigners spread out across Palm Beach County this week in the annual March of Dimes campaign which volunteers hope will bring \$90,000 to be used in prevention and treatment of infantile paralysis.

The county drive is being directed by Herbert C. Gee, West Palm Beach, who will have charge of the polo fund drive which will continue until March 31st.

One of the principal events being planned this year throughout the county Gee said, is the annual Mothers March which will be staged on January 28.

The mothers event last year proved to be one of the best methods of taking up contributions in the fund drive.

## ST. LUCIE DISCHARGE STOPPED WHEN LEVEL REACHES 15.44 STAGE

Subject: Canal to be stopped at 8:00 a. m. to continue through Caloosahatchee River and canal.

Discharge of water from Lake Okechobee through the St. Lucie Canal will be completely shut off by 8:00 am on January 15th, according to word received this week from the Jacksonville District Office of the Corps of Engineers.

Colonel H. W. Schull, Jr., District Engineer, said the flow to Lake Okechobee is now less than the discharge capacity of the Caloosahatchee River and the agricultural canals leading from the lake.

"The lake can be regulated without use of the St. Lucie Canal during the remainder of the winter season, barring abnormal rainfall," Schull said.

He has instructed the Clewiston sub-office to begin closing the lock at 8:00 o'clock Thursday morning, January 14th, and to have the lock completely closed by 8:00 o'clock on the 15th, at which time the lake elevation will be 15.5 feet, the maximum safe level.

Schull said that discharge through the Caloosahatchee River and the agricultural canals will be continued in order to keep the lake within the prescribed elevation.

Schull also stated that dredging to remove shoaling in the St. Lucie Canal behind the lock is well under way, and will continue until the channel depths are restored. The dredging is being done by Brinson Construction Company of Tampa.

**JUDGE ROBBINS SPEAKS AT GCL GLADES MEETING**

The Everglades Good Citizenship League met at the Community Methodist Church in Belle Glade Sunday afternoon.

Judge Richard P. Robbins of West Palm Beach was the guest speaker. He presented an interesting discussion of the work and scope of Juvenile Court in West Palm Beach and the role which alcohol plays in juvenile delinquency.

He pointed out that good family relationship is the foundation of the greatness of the United States and that anything that menaces this relationship also menaces the nation; that 92 percent of juvenile delinquency may be traced to the disintegration of family home life; that alcohol is one of the great menaces to right family relations.

Some of the causes of alcohol consumption he listed were frustration, discouragement, desire to forget one's troubles. Palm Beach County, he stated, has an average of 17 incompetency cases a month, 80 percent of which are due to alcohol. The United States, he said, spends three billion dollars a year on her schools, yet nine billions are spent during the same year for alcoholic beverages.

A business session followed the address, John Cooper presiding. A finance report was presented by George L. Royal with recommendations that a membership fee of \$2.00 be charged and that free will offerings and drive for funds be made as specific need develops.

The recommendations were accepted. Robert Ford presented the constitution and by-laws report, and they were duly accepted.

It was decided to meet once each quarter on the second Sunday in January, April, July and October with called meetings when necessary.

Officers were elected to hold office for one year. J. L. Merrill of Pahokee was elected president, John Cooper of South Bay, vice-president; Mrs. G. J. Barstow, South Bay, secretary; C. A. Bailey of Belle Glade, treasurer.

Approximately 50 persons were in attendance.

KATHLEEN LIVINGSTON, Editor

YOU NEED YOUR CHURCH YOUR CHURCH NEEDS YOU...

## CHURCHES OF CHRIST, SCIENTIST

That harmony in daily affairs demands obedience to God's laws will be emphasized at Christian Science services Sunday.

The Lesson-Sermon entitled "Life" includes the following account of counsel by Christ Jesus from the Bible:

"And, behold, one came and said unto him, Good Master, what good thing shall I do, that I may have eternal life? And he said unto him, Why callest thou me good? there is none good but one, that is, God; but if thou wilt enter into life, keep the commandments" (Matthew 19: 16, 17).

The following correlative passage will be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy:

"We apprehend Life in divine

Science only as we live above

corrupt sense and corrupt

Our proportionate admission

of the claims of good or of evil

determines the harmony of our

existence, — our health, our

longevity, and our Christianity

(167-8).

TEXT: "Americanism craves

ciples of America" — "The

Wilton.

A traveler in a rural area

noticed a farmer having trouble

with his horse. It would start,

go slowly for a short distance,

and stop. Then the farmer

would have difficulty in getting

him started. Finally the traveler

approached and asked, "What

is your horse sick?"

"Well, he ain't sick,"

"Well, he ain't balky," was

the reply.

"What was the matter with

him? In acting to reach a place

where he will not be uneasy,

he achieves goals that benefit

himself. Freedom to try, plus

man's inborn desire for ease,

make the free enterprise system

the most successful way of

life ever known. Regulation and

control of his efforts to free

himself from uneasiness, choke

him regularly and he moves

living only to hear someone

This is the darkest that Jesus loves me.

I am so glad that my Father in Heaven

Tells of His love in the Book He has given;

Wonderful things in the Bible I see;

When I remember that Jesus loves me.

Thou I forget him and wander away;

Still He doth love me wherever I stray;

Back to His dear loving arms would I flee,

When I remember that Jesus loves me.
